ABOUT THE INSTITUTE:

Govt. College of Engineering and Research Avasari, Pune: The college has been established in August 2009 by Government of Maharashtra. The college is approved by All India Council for Technical Education New Delhi and is affiliated to Pune University. The college offers six under graduate programs in Engineering, with a sanctioned intake of 60 for each program and three Ph.D. Supervisors, approved by the University in the discipline, CIVIL ENGG., MECHANICAL ENGG., & COMPUTER ENGG.

ABOUT THE WORKSHOP:

The objective of this training workshop is to equip an individual with the procedure for filing the patent application and to study the procedure for converting the research into a patent. And to know about the travel of his patent application in patent office.

An inventor/innovator invests his time and money behind his invention/ research, this research can be made available to the public if he protects his research by obtaining patent. An inventor can patent even minor improvements in a product/process if it is fitting under the rules of Patent act 1970, amended on 5th March 2003.

This workshop is planned to help each one of you to learn do-it-yourself techniques to protect your new ideas/innovations/research and converting them into patents and commercialize if possible.
