

Minutes of the pre-bid meeting held at Conference Hall of DTE , Mumbai on 21 June 2010.

Minutes Of Pre-bid for Flash Chromatography

Tender No. 11/DTE/State/33/2010-2011

Item – Flash Chromatography

Time – 1 p.m. Dt. 21/6/2010.

Venue :- desk 5 cabin , DTE office

Mr. Amte welcomed all the members & Same brief Information @ tender documents required.

Mr. Amte gave information tender fees – IPO/DD/CASH@ office

EMD – Maximum Rs. 5000/- DD or BG will do. Item name to be mentioned for exemption .

VAT CC/STCC upto Dec. 2009. No dues must be mentioned

Authorization /SSI manufacturing certificate. Tender form copy in Bid 1 .Tender form, priced on it, signed, sealed in Bid 2.

Mr. Amte – Any Doubts?

All – No.

Mr. Amte – If anybody present has not fixed brand & are discussing with 2/3 companies, they will later not be able to claim that the specification they want to quote do not match with tendered specs. Tender specs, can be changed to accommodate as many branch as possible, during pre-bid .But once pre-bid minutes are finalized, no claim will be entertained.

All – Yes.

Dr. Mourya – Any difficulty ?

Please let me know. Now I read all specs.

Mr. Sameer – Can we mention two +ve displ pump?

Dr. Mourya – Pump is not important but maintenance free value is needed. Two types of valves –ve which requires frequent maint(enance) other has Ruby, it does not need maint(enance). If we write +ve, displ. pump, it will be specific, so we maintain any 2 pump should be CE certified.

Dr. Mourya – we need quaternary system. Tend doc contains binary system. Quaternary works as binary. switching of valve is permitted .Please quote quaternary so that it can be used binary.

Dr. Mourya – Is flow rate 200 acceptable

All – Yes.

Dr. Mourya – Pressure 200 psi?

Bidder – Yes

Dr. Mourya – PDA ?

Bidder – No Problem

Dr. Mourya – we want 12 X 12 Matrix fraction collection

Vishwakarma – we will quote higher

Dr. Mourya , Mr. Amte – No Problem. You can quote anything higher

Dr. Mourya - since a few system in market work on 110V pl. convert & quote only the system working on 230V

Bidder – Do we have to quote all columns ?

Dr. Mourya – Quote all types of columns .Give a chart .Type of material & price. We will choose later on which columns to be a purchased.

Bidder – Do we need to quote computer?

Dr. Mourya – You may.

Mr Amte – give specifications of required computer & we will provide.

Mr. Vishwakarma – Touch screen system do not require PC

Dr. Mourya – But PC is required for redundancy & also to store data

It was decided that computer will be optional but compulsory to quote. Bidder must give specs of required PC. Scrutiny committee will take decision of adding PC to PO later on. Price of PC will not be considered for evaluation.

It was decided to change the words. “Peak Track software” as “ Software for tracking the peaks”

Delete the “Redi sep column sizes – 4 gm to 330 gm”
and write

“Column size – 4 gm to 330 gm or any other standard range”

Dr. Mourya – You can quote any higher/better specs model with +ve deviation.

Mr. Amte – With these charger accepted, do you required any extension in last date of submission?
i.e. 9th July, 2010.

Mr. vishwakarma – No.

Mr. Sameer – No it is sufficient

Mr. Manish – for reaction station.

Mr. Sumit –for reaction station

Mr. Laddha – No.

Mr. Uday & Dara joined when the meeting was about to end. To facilitate his participation, it was decided to ask him any queries.

Mr. Amte – First highlight your queries & then we will discuss what we have decided so far.

Dr. Mourya – Read the tender document, if these is no query, it means the specs in tender are acceptable to you.

Mr Uday – Why do you need vapour sensor?

Dr. Mourya – suppose these is any leakage of vapour, due to malfunctions. It can be sensed.

Mr Dara : For this, is leakage detector acceptable ?

Dr. Mourya : It is accepted. It was accepted, that modify the line

“ Safety regulatory requirement such as vapor and over pressure sensor “
to

“ Safety regulatory requirement for leak detection “

Everybody accepted.

Mr Uday : Flow rate is 200. It should write minimum ?

Dr. Mourya “ Don’t you have 200 system ?

Mr Uday : We do have.

Dr. Mourya & Mr. Amte : they why change ?

Mr. Amte : Flow rate etc. will be actually tested by demonstration.

Mr Uday : Why pressure of 200 ?

As per discussion, it was decided to change

“ Pumping system with maximum pressure capacity of 200 psi “
to

“ Pumping system with maximum pressure capacity of 145 psi or better and up-gradable to 200 psi
in future “

Mr Uday : You have asked for PDA. Any specific application.?

Dr. Mourya : With mixed samples, PDA will help detect which parts to separate.

Mr. Amte : It is requirement of the user.

Mr Dara : It is looking specs. No other company in the world is manufacturing it other than Teledyne.

Mr. Amte : It is requirement.

Mr Uday : Automatic sensing of test tube size in fraction collector be removed.

Dr. Mourya & Mr. Amte : We will modify. We will not remove it.

Mr Uday : Why “ Solvent level sensor “ ? Is monitoring not ok ?

Dr. Mourya : Do you have warning system in it.

Mr Uday : Yes

Dr. Mourya : Change it to “ Solvent level monitoring & warning system “

Mr Uday : Min 144 & 480 ml are contradictory.

Dr. Mourya : Change it to 140 tubes for 16mm.

Mr Uday : “ and other containers “ means what ?

Dr. Mourya : lets remove it.

Dr. Mourya : We have already amended the clause about the software.

Mr Uday : Column history. Why necessary.

Dr. Mourya : Column detection & column history are part of validation.

Dr. Mourya & Mr. Amte : Remove safety features clause at the end since it is already mentioned.

Dara : PDA ? PDA with flash chromatography no other manufacturer except Teledyne. So it is locking specs.

Mr. Amte : But is user requirement becos the material is unknown.

Mr Uday : No 3 brands are available in world which can supply PDA with flash chromatography.

Mr. Amte : Purpose of pre-bid is to offer clarification on requirements. But we will not change the user requirements.

Mr. Amte : Decision on this will be taken & informed to all present and also on website. If needed, extension in last date of submission will be permitted and this will be informed to all the present by email & on website.

Mr. Amte proposed vote of thanks & concluded meeting.

We the following members have read above notings & confirm them as minutes of meeting.

- 1) Mr. A.V. Amte
- 2) Dr. Mourya
- 3) Dr. Mayura Kale
- 4) Mr. Dara
- 5) Mr. Uday Patekar
- 6) Mr. Vishwakarma
- 7) Mr. Sameer Halde
- 8) Mr. Sudhir Laddha
